in standard sizes;
Round 600mm and 700mm
Square 600mm

For the Pulteney and Jura bases standard size;
Square 700mm only in colour finishes White, Black, Dark Grey and Mineral

PULTENEY FLIP BASE

730mm ht 4-spur base suitable for tops to 1000mm dia and 900 x 900mm.
Technopolymer and metal co-injected base with round aluminium stem and top cross.

Weight - 10kg
Space-saving shaped base and flip mechanism enables easy stacking and storage.
Suitable for outdoor use with the appropriate top.
Base available anodised aluminium or black.

JURA FLIP BASE

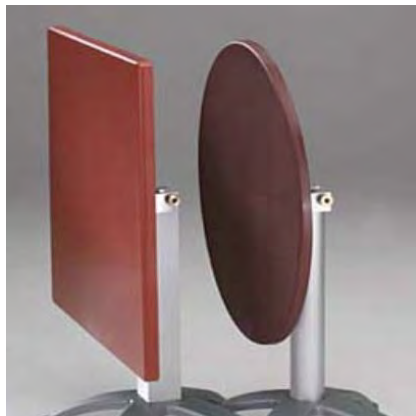

730mm ht 4-spur base suitable for tops to 1000mm dia and 900 x 900mm.
Technopolymer and metal co-injected base with round or square aluminium stem and top cross.

Weight - 13.5kg
Space-saving shaped base and flip mechanism enables easy stacking and storage.
Suitable for outdoor use with the appropriate top.
Base available anodised aluminium or black.

FLIP TABLES - TOPS

30mm TECHNOPOLYMER TOPS

Economically efficient and tough. These tops are practical, strong, resistant to heat and scratching, anti-static and UV-resistant. Predominantly manufactured from recycled technopolymers. No special maintenance is required other than normal cleaning with water and detergent and a soft cloth. Avoid the use of aggressive chemicals like bleach and abrasive cleaners.

Available in a choice of nine attractive colours.

Standard colours; White, Black, Pearl Grey, Blue, Red, Beige, Turtle Dove, Green, Sky

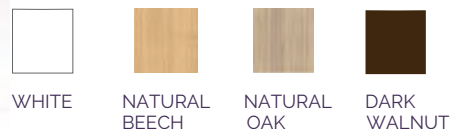

Standard sizes for Pulteney and Jura flip-top bases;

Round 600mm and 720mm

Square 600mm, 720mm and 800mm

WHITE BLACK PEARL GREY BLUE RED BEIGE TURTLEDOVE GREEN SKY

WHITE NATURAL BEECH NATURAL OAK DARK WALNUT

22mm LAMINATED TOPS

These high quality tops comprise a recycled wood chipboard core faced with a high pressure decorative laminate layer and ABS edging. The tops are balanced on the reverse side.

This gives a very stable, low maintenance and resilient top, resistant to minor bumps and scratches. Laminated surfaces can be cleaned with water and detergent solutions. Avoid the use of aggressive chemicals like bleach and abrasive cleaners. Not suitable for outdoor use.

The standard decors are; White, Natural Beech, Natural Oak and Walnut

The standard sizes appropriate for the Pulteney and Jura flip-top table bases are;

Round and Square 600mm, 700mm, 800mm, 900mm

The standard sizes appropriate for the Ardbeg flip-top table base are;

Round 600mm & 700mm, Square 600mm

WHITE BLACK PEARL GREY

10/12mm COMPACT TOP

Strong but elegant and highly practical tops. These are manufactured by compressing many layers of paper and thermosetting resin under high pressure and heat. This makes a very robust and stable top resistant to bumps and scratches, chemicals and heat that can be utilised inside or outdoors. Low maintenance, the non-porous surface can be cleaned and disinfected with hot water, steam, detergent and disinfectants. Avoid the use of aggressive chemicals like bleach and abrasive cleaners.

The standard decors are; White, Black and Pearl Grey

The standard sizes appropriate for Pulteney and Jura flip top table bases are;

10mm Round: 600mm, 680mm

12mm Round: 800mm, 1000mm

10mm Square: 590mm, 680mm, 790mm, 890mm

The standard sizes appropriate for the Ardbeg flip-top table base are;

10mm Round: 600mm, 700mm

10mm Square: 600mm

WHITE BLACK PEARL GREY

25mm STEEL TOP

Comprising a water repellent wood-based ply core faced in steel. No special maintenance is required other than normal cleaning with water and detergent and a soft cloth. Avoid the use of aggressive chemicals like bleach and abrasive cleaners. These practical tops can be utilised indoors and outdoors and are available in three colours.

The colour finishes are; White, Black, Pearl Grey

The standard sizes available are; Square: 600mm, 700mm, 800mm

A premium quality Director's Chair manufactured for contract use in first choice solid beech hardwood utilising precision fitted, quality, high tensile steel components.
